TBN STUDIOS

Letter from the Managing Director

LET US BUILD

Dear beloved Partner and friend

It is with great pride and gratitude to come to you with a wonderful progress report of what the Lord has done and keeps doing at TBN Africa. As I had mentioned last month, the renovations to our building commenced on 01 September 2022. There really has been much progress and we are excited that with all the load shedding interruptions that continuously take place in our country, we still will be able to meet our deadline of end May 2023.

Much progress has been attained and we cannot wait to at least move in whilst contemplating official opening and launch. Here are the pictures of what the building looks like so far.....

What is exciting about this building is the amount of production we now will be able to do from it. This building has beautiful and ample office space as well as two very spacious studios from whence we will be doing production of television programs like:

- Music shows,
- Lifestyle programs,
- Talk shows,
- Cooking shows,
- Praise,
- Teaching programs,
- Our own "Better Together" program

and a plethora of other programs some of which have been suggested by you our viewer and partner.

Over the years we have accepted some programs even if they were not hundred percent picture and sound quality as a result of the wonderful message they would bear.

At TBN Africa we believe that "Excellence honors God and attracts people" and it is now a perfect opportunity to practice that without compromise. We now will have endless opportunities to invite into our studios all our programmers and ministries with challenges of producing quality programs as a result of lack of equipment, lack of space or any other impediment that tempers with good quality production. The added bonus about these studios is that we can rent or lease out the bigger studio to other production companies for substantial income whilst building relationships with them.

Letter from the Managing Director

LET US BUILD

What is our Ask?

Prior to the demolition stage of the walls and other parts of the building that we do not need, our engineers did an assessment and discovered that our air-conditioning system is depleted, they also brought to our attention that because of the age of the air-conditioning system, the occupational health and safety regulations are phasing out this system as they found out that the gas in these air-conditioning systems is poisonous and not suitable for working or any occupational environment. Having said this we need the whole air-conditioning system. The most affordable quotation received for this exercise is R1,9million.

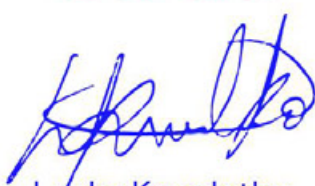

The second and most critical discovery was that one of the studios roofs has to be totally repaired due to the fact that during the rainy season it brings in water as it has a major leakage. This has a potentially hazardous effect to the entire electrical system and building at large. Also the most affordable quote we could get for this was R2,4 million. Our ask in total therefore comes to R4,3 million. It is right at this point that we ask that you become part of the building blocks of this entire building that will leave a lasting legacy for generations to come.

This building will ensure the propagation of the Gospel to the entire Africa and the Globe for generations to come. Please become part of this vision by supporting us financially. Call our office or visit our website for building donations. Africa has always been seen as a dark hole or a continent that always asks for handouts, we can put an end to that by doing this building together and on our own. In so doing we both leave a legacy and be counted in on leaving a lasting impression of the Gospel for our continent.

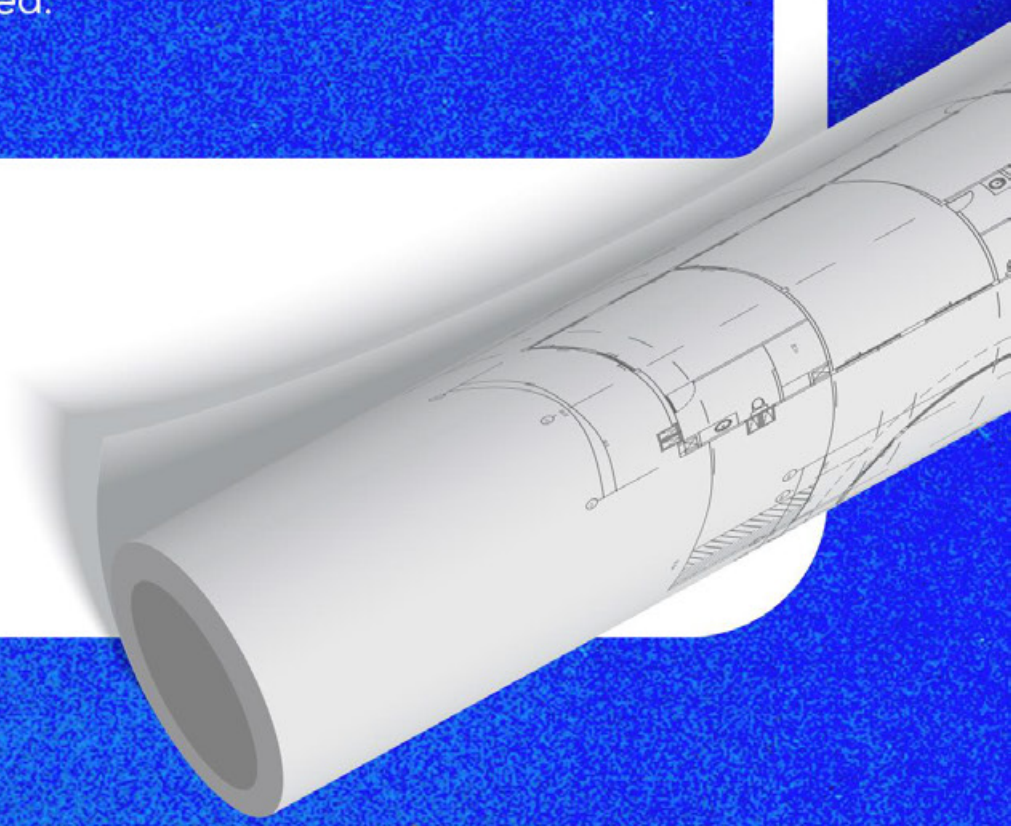

We thank you so very much and ask that you keep us in your prayers as we plan for the great future the Lord has already shown us. In our next update we will brief you on the progress and what still needs to be achieved.

Please take a look at the desired end product.

Yours in Christ

Lucky Kayaletu
Mbiko

SPECIAL THANK YOU TO YOU OUR PARTNER

The Power of Partnership

*How could one chase a thousand, And two put ten thousand to flight.
Deuteronomy 32:30*

We have an enormous appreciation for the partners who believe in this ministry. TBN Africa has provided for multitudes of ministries. The thing that built this network more than anything was Paul and Jan Crouch been led by the holy spirit in God inspired moments.

"We always talk about the preachers... Paul says but how will they preach unless they sent" - Romans 10:15.

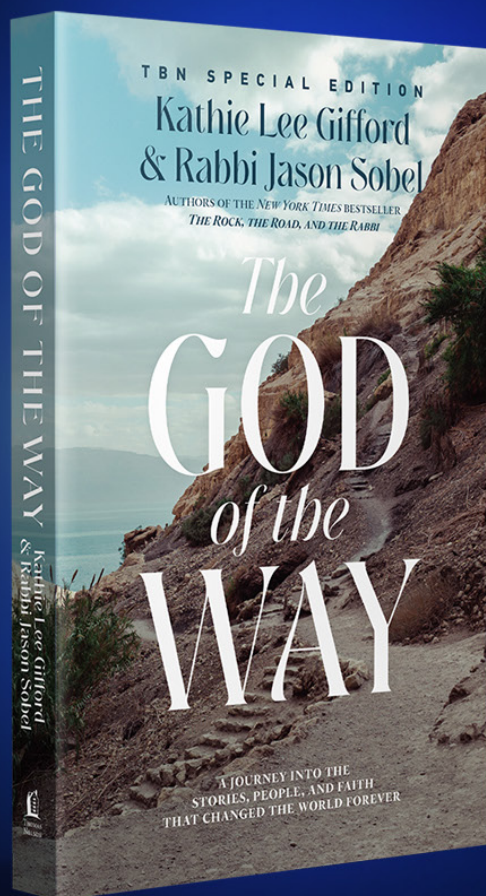

It is absolutely super natural what God has done in and through TBN Africa to cover our continent. It's really the Partners and the people who watch the network for decades and years. They gave and continue giving towards every need at TBN Africa. And the beauty of this is that you can be part of fulfilling an in-time prophesy of Jesus Christ Himself in Matthew 24.

"And this gospel of the kingdom will be preached in all the world as a witness to all the nations, and then the end will come". Matthew 24:14.

*"We believe a little one shall become a thousand,
And a small one a strong nation". Isaiah 60:22*

THANK YOU FOR TAKING THE GOSPEL TO MANY HOMES IN AFRICA

TBN Africa Team

November Gift of the Month

When was the last time a story changed your perspective and inspired new hope in your heart? Scripture is full of them—one person after another trusting God's goodness and putting His faithfulness on display, God making a way for His children to find freedom time and again.

And if you look at these stories with a couple of traveling companions a lifelong Bible student and a rabbi who loves Jesus you'll discover deeper meanings and applications in each one.
